Copyright of this drawing is reserved by JODA Engineering Consultants. This drawing is issued on condition that it is not copied or disclosed by, or to, any person or persons without prior consent in writing from JODA Engineering Consultants. The user of this drawing shall cross-check dimensions shown on this drawing with relevant dimensions shown on other drawings issued by JODA Engineering Consultants and by other design consultants relevant to the project prior to any fabrication or construction on site. All errors, omissions and discovered inconsistencies to be reported to the JODA Engineering Consultants immediately. Drawings show design intent only. Do not scale dimensions from the drawing as the resulting dimension may be incorrect. JODA Engineering Consultants accepts no responsibility for errors made as a result of scaling of any dimension from this drawing.

NOTES.

NOTES:
1. This drawing to be read in conjunction with all relevant drawings and specifications.
2. Do not scale, if in doubt ask.
3. All drawings to be checked on site.
4. All levels to OSGM50 Datum.

Foul Water services - Construction
Foul water sewers shall be constructed in accordance with the following documents:
- Irish Water Code of Practice for Wastewater Infrastructure (a design and construction guide for developers)
- Irish Water Connection and Developer services - Wastewater Infrastructure Standard Details

Foul Water drains and sewers - Legend

SF	New foul water drain pipe
SFP	New foul water rising main pressurised
SFE	Existing foul water drain pipe
	Existing foul water drain pipe - Remove
SFPE	Existing foul water rising main pressurised
	Existing foul water rising main pressurised - Remove
SFWE	Existing foul water sewer pipe under Water Authority control
SFWPE	Existing foul water rising main pressurised sewer pipe under Water Authority control
SCWE	Existing combined storm water and foul water sewer pipe under Water Authority control
225 DI PVC @ 1:200	200mm internal diameter PVC pipe, gradient as laid 1:200
TYPE G	Trench construction type
VS	Vent stack, new
VSe	Vent stack, existing [Remove when noted thus]
FAJ	Access Fitting, new
FAJe	Access Fitting, existing [Remove when noted thus]
FIC	Inspection Chamber, new
FICe	Inspection Chamber, existing [Remove when noted thus]
FMH	Manhole Chamber, new
FMHe	Manhole Chamber, existing [Remove when noted thus]
FDMH	Rising pressurised main discharge manhole, new
FDMHe	Rising pressurised main discharge manhole, existing
FScV	Scour valve and chamber for rising pressurised main, new
FScVe	Scour valve and chamber for rising pressurised main, existing
FSV	Stop valve and chamber on rising pressurised main, new
FSVe	Stop valve and chamber on rising pressurised main, existing
NRV-SV	Non-return valve with stop valve and chamber on rising pressurised main, new
NRV-SV	Non-return valve with stop valve and chamber on pressurised main, existing
FAV	Air valve and chamber on rising pressurised main, new
FAVe	Air valve and chamber on rising pressurised main, existing
